### **Instructions:**

1. All adhering will be done with the Fabri-Tac Glue.
2. Using the rubber mallet; hammer the bottle caps to flatten.
3. Cut the circles out of the ivory cardstock using the coluzzle. Hand write the name on one of them. I then take the circles and make stitch lines around the outside.
4. Stamp the pumpkin out of the fun pack set onto the other two circles with black ink. Color in the design with the Prismacolor pencils. Make stitch lines around these, also.
5. Adhere the three circles onto the three bottle caps.
6. Mat your picture onto the brown and orange cardstock in that order. Adhere to the 8"x8" piece of dark brown cardstock for layout. You will want to adhere this to the top portion of the layout page.

7. Adhere the ribbon to the bottom portion of the page. Adhere each end with a decorative leaf brad. Place the bottle caps, spaced evenly, between the two brads. Glue in place. Add the other two brads between the bottle caps. Fun and Easy page! ENJOY!!!!
