

## Alcohol Ink Smoosh

Angie Secrest  
Crafty Cruisers  
Intermediate Stamping Team Designer

### Supplies:

Adirondack Alcohol Inks: (Ranger)

- Rust
- Carmel
- Red Pepper

Adirondack Metallic Mixatives: (Ranger)

- Gold

Alcohol Ink Blending Solution (Ranger)

Black Archival Ink Pad (Ranger)

Lighthouse Stamp (The Angel Company [TAC])

Verse Stamp (TAC)

Craft Sheet (Ranger)

White Glossy Card Stock (cut to card size)

### Instructions

1. Tape craft sheet down to work surface.
2. Shake the metallic mixative until you hear the balls inside. Drop a few drops or make a line of the metallic mixative on craft sheet.
3. Next drop random drops of the various alcohol inks onto the sheet directly onto the metallic mixative.
4. Sprinkle blending solution over all inks.
5. Place glossy cardstock glossy side down into the inks and twist.
6. Lift to reveal.
7. If there is still ink left add more blending solution and use another sheet of glossy to collect it. (This called a 'second-generation print.')
8. When finished sprinkle blending solution onto sheet and wipe clean with a paper towel.
9. Stamp light house and verse with black ink.
