Ultra Fine Glitter (Art Institute)

Silver Leafing Pen (Krylon)

Sizzlet Heart Die (Ellison)

Sizzix Sidekick (Ellison)

Non-stick Craft Mat (Ranger)

1" Square Punch (Creative Memories)

Heat Gun

Fibers

Craft Wire

Pencil

Scissors

Adhesive of Choice

3D Dots Adhesive Foam Squares

Optional: Circle Cutter; Box lid or pie tin; Long nose tweezers

**Note: These stamps from The Angel Company are retired and no longer available for purchase.

Instructions:

1. Using the CD as a template, trace the circle with a pencil on a scrap piece of cardstock and a black piece of cardstock. Cut out.
2. The red circle is the back of your wall hanging. Using the 'Love' stamp, ink it with the Platinum ink pad and stamp several times all over the circle. Using the Silver Leafing pen, outline the circle and set aside.

3. Using the Platinum stamp pad, ink up the Love definition stamp from the Well Defined Backgrounds set. Stamp several times onto the black circle.
4. Using the VersaMark stamp pad, ink the 'LOVE' stamp from the Dance with Your Spirit set. Stamp randomly over the Love Definition that was previous stamped. Sprinkle the Silver embossing powder over the Love words, shake off excess, and melt with a heat gun.
5. Now, take the 'love you' stamp from the Little Tidbits set and repeat step 4. Outline the circle with the Silver Leafing pen.
6. Tear a piece of red mulberry paper to fit the black circle and adhere. Set aside.
7. Punch 4 squares from the scrap white cardstock. Ink the letter "L" with the Platinum ink pad and set aside. Take one of the squares and place on top of the Versa Mark pad and push around with your fingers to cover the cardstock with the ink. Sprinkle the red embossing powder over the square, carefully lift with the tweezers and shake off excess. Place in a box top or pie tin and heat until melted. (You may want to hold the square down with the tweezers so it doesn't fly away while you are heating it). Quickly add another layer of embossing powder while it is still warm and melt again. Repeat this step about three times. On the fourth coat, sprinkle glitter over the square, then a bit more embossing powder and heat until melted. On the last layer, when done melting the embossing powder, and it is still warm, stamp the letter "L" directly on the square. Leave the stamp sit on the square for a minute or two until the embossed layers cool for a beautiful imprint. Remove the stamp.
8. Repeat Step 7 for the other three letters of the word 'LOVE'. Adhere the squares to the circle using the picture shown for placement.
9. Cut hearts out using die cutting machine of choice. I used the Sizzlet Heart die with the Sizzix Sidekick. Wrap hearts in wire. Adhere one heart flat to the circle. Adhere the second heart with the 3-D adhesive square referring to the picture shown.
10. Wrap the circle with the fibers – attaching them to the back of the circle.
11. Make hanger by doubling over the ribbon and adhering it to the CD.
12. Adhere the black embellished circle to the CD. Make sure you get the top of the circle placed so it is centered over the hanger!
13. Adhere the red circle to the back of the CD.
